DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 6, 3, 7, 4, 8, 5, 9-13, 17, 14, 18, 15, 19, 16 and 20, renumbered 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant has successfully argued on page 8 of the Response/Amendment filed 23 September 2004 that applicant, acting as his/her own lexicographer, clearly defined a "data stream characterization" in the specification of the instant application, as filed, to be "a set of data stream parameters derived from measurements" taken on a set of collected data packets, the data stream characterization representing "the network traffic at a specific point in the network" (page 9, lines 17-22 of Applicant's Specification). The use of a "data stream characterization" as clearly defined by the applicant in combination with the remaining limitations in independent claims 1 and 11 is not taught or made obvious by the prior art. The rejections to independent claims 1 and 11 and the claims depending from them are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
